

Dear Valued Partner,

We would like to inform you that effectively as of January, 1st, 2026 Nafigate Park, s.r.o. will be renamed to **Techspin, s.r.o.** We have decided to change the company name for two main reasons.

Firstly, we feel we need to distinguish ourselves from our former parent company Nafigate Corporation, Ltd. Nafigate Corporation and its 2015 spin-out company Nafigate Cosmetics, Ltd. have created a family of three Nafigate named companies and we feel we need to distinguish ourselves not only on the basis of company name but also on the nature of the business we conduct. **Techspin, s.r.o.** continues to be a nanofiber research and development and industrial scale production company providing high-end tailor made multilayer nanofibrous materials for filtration and other innovative applications.

Secondly, it has been five adventurous years for Nafigate Park in which the entire team has worked hard to develop and customize nanofibrous layers for our clients. We are happy to say that we have been successful in doing so and the future deliveries of customized nanofibrous filtration media to our long-term partners are increasing to a scale that will require an increase in our production capacities. Therefore, changing our company name comes in time to mark another epoch in the development of our company.

Outside of the name change our web page and email addresses will change as well. @nafigatepark.cz changes to "first-name.last-name@**techspin.cz**".

Existing contracts, general terms and conditions, as well as contact persons and address, bank details, VAT number etc. will remain unaffected.

We kindly ask you to update your records accordingly and use our new company name for all business transactions — including orders, invoices, payments, and legal documentation — starting January 1, 2026.

We appreciate your understanding, stay available for your questions, and look forward to continuing our good and cooperative partnership.

Sincerely,

Techspin management team,

Michal Mares
